'JIVE TALKIN' WINS 2005 AUCKLAND/SUVA RACE

Jive Talkin', racing in the 2005 Auckland/Suva race, has cleaned up on ORC and PHRF handicap as well as finishing 8th on line behind much larger yachts including the super-maxi Konica Minolta.

Racing with a small crew of six, this little 35' yellow rocket. was first past Northhead and had averaged a speed of 10.8 knots for the first two days before the breeze lightened north of New Zealand. With constant bursts of 21 knots, and an average speed of over 10 knots for the race, Jive' was worked hard and the win well deserved.

Designed by Laurie Davidson in 2001, with design support by Dibley Marine, Jive Talkin' has dominated the various ORC offshore series that she has entered since launching, and with her new keel and rudder designed by Dibley last year to account for the new changes in the rule and the way the crew sail her, she has again taken a leap forward in both performance and handling.

Congratulations to Ray Haslar and crew on a well deserved win.

'SUPERGROOVE' & 'SPRINGLOADED' FOR SALE

'SUPERGROOVE'

Supergroove was Dibley's first yacht commission when working as Design Director for Eagle Yachts in the early 1990's. She was designed for Jono Gravit for fun, shorthanded Coastal Racing but with the capability of trailering to the various Lake Regattas around the country. Professionally built by Nigel Rippey Boatbuilders with her Carbon Rig by Tim Willets, Supergroove has dominated the Trailer Yacht scene since launching and is currently the New Zealand Trailer Yacht Champion for the 5th time since launching. She is now up for sale by her Wellington owner and enquiries can be made through Dibley Marine on specifications, equipment list etc....

'SPRINGLOADED'

Springloaded is Supergrooves sistership with minor modifications. Raced in Auckland, she has recently had a complete makeover with a new paint job in 2004 and a new carbon prod and lead bulb to Dibley's latest design. Her current owner is moving to the UK and sadly he can't take Springloaded with him. All enquiries can be made through Dibley Marine on specifications, equipment list etc....
